

INFOTECH SERVICE FZ-LLC Environmental Statement 2024

Our Commitment to Environmental Sustainability

INFOTECH SERVICE FZ-LLC, a leading company in the technology sector, acknowledges the critical importance of environmental sustainability. We recognize that our operations and business activities have an impact on the environment, and we are committed to minimizing this impact by embedding sustainable practices throughout our company.

As part of our commitment to the environment, we pledge to:

1. Comply with Environmental Regulations:

- Adhere strictly to all applicable environmental laws and regulations in the regions where we operate.
- Ensure that our activities meet or exceed regulatory requirements to safeguard the environment.

2. Promote Environmental Awareness:

- Foster a culture of environmental responsibility among our employees, partners, and stakeholders.
- Provide regular environmental education, training, and awareness programs to ensure that sustainability is a core part of our operations.

3. Reduce Carbon Emissions and Energy Consumption:

- Implement energy-efficient practices and utilize low-carbon or renewable energy sources wherever possible.
- Actively seek to reduce our carbon footprint across our facilities and operations, with a goal to achieve carbon neutrality in the near future.

4. Optimize Resource Utilization:

- Enhance the efficient use of natural resources, including water and raw materials, to reduce waste and consumption.
- Strive to adopt sustainable solutions that lower resource dependency and encourage the use of eco-friendly alternatives.

5. Minimize Waste and Pollution:

- Implement strategies to prevent and minimize pollution in all forms, including air, water, and soil contamination.
- Adopt waste reduction, recycling, and responsible disposal practices across all our sites and operations.

6. Implement Environmental Management Systems:

- Operate under a certified ISO 14001 environmental management system, ensuring that our environmental practices are standardized and consistently improved.
- Continuously assess and improve our environmental performance through audits, objectives, and action plans.

7. Engage with Stakeholders and the Community:

- Collaborate with clients, suppliers, scientists, and community partners to develop and support solutions to environmental challenges.
- Contribute to global efforts in tackling issues such as climate change, biodiversity loss, and pollution.

8. Sustain Continuous Improvement:

- Set clear, measurable environmental goals and track our progress annually to ensure sustained improvement.
- Conduct regular internal and external audits to assess environmental risks and opportunities for further enhancement.

9. Executive Oversight and Accountability:

- Our leadership team, including the Executive Committee, is actively involved in monitoring environmental performance and ensuring alignment with our sustainability goals.
- Responsibility for implementing environmental strategies is assigned to leaders across all operational levels, ensuring that environmental stewardship is integrated into daily activities.

Conclusion

INFOTECH SERVICE FZ-LLC remains deeply committed to protecting the environment for present and future generations. Our approach to sustainability is aligned with our core values, and we will continue to explore innovative ways to reduce our environmental footprint while contributing positively to society.
